

## **SCHOOL DISTRICT ORGANIZATION PLAN**

For instructional purposes, the schools of the district shall be organized on an elementary, middle and high school basis. The preferred grade structure for these schools shall be grades Pre-K-5 for elementary grades, grades 6-8 for middle schools and grades 9-12 for high schools.

Deviation from the preferred grade structure shall be minimal and shall occur only when the geographical location of a community makes such a grade structure impractical to implement.

The Board shall approve all changes in instructional organization as it pertains to grade levels accommodated in various school buildings before such changes take effect.
