

SCHOOL LIBRARY MEDIA PROGRAMS

The focus of School Library Media Programs has moved from resources to students to creating a community of lifelong learners. Library media specialists' efforts lie in three major areas: (1) learning and teaching (2) information access and (3) program administration. The mission of the Library Media Program is for the library media specialists and teachers to collaboratively design learning experiences that will help students master both disciplinary content and information literacy.

Teachers must accompany and remain with their classes when going to the Library Media Center.

The Library Media Center will be closed to classes during the first week of school and the last two weeks prior to summer closing.

Current practice codified
