

## UNAUTHORIZED PRESENCE ON SCHOOL GROUNDS

Students suspended, expelled, excluded or removed from campus due to disciplinary reasons may not be on any school campus or any school-related activity during the term of that exclusion or removal.

Students may not be present on any school campus, other than their own, during the school day without prior administrative approval.

Supervision is provided during designated hours on each campus. Please refer to the school handbook for those hours. For safety reasons, a student may not be on campus before or after the designated hours of supervision (excluding approved extra curricular events). This also refers to early drop offs and late pick ups.

Students attending any approved extra-curricular school activity must leave or be picked up promptly at the conclusion of the activity.

Students receiving homebound services are not allowed on school campuses and may not attend school-sponsored activities.

No person shall without authorization intentionally enter any school building or enter on school property without the consent of school officials. Persons may enter campus for school events. However, during school hours of operation, all non-students or non-school employees must report to the office prior to entering the campus. Any violation of this policy constitutes criminal trespass.
