

STUDENT RECORD IDENTIFICATION

Each child enrolled in a Lafayette Parish Public School should have a Social Security number and should present such to the local school administration for verification. This number will be used as the official identification number for all student records in the Lafayette Parish Public School System. The school will assign a SIS number for the purposes of identification if the student does not provide a Social Security number.

Adopted: 10/3/90
Revised: 12/2/98
