

VISITORS TO THE SCHOOLS

The Board recognizes its responsibility to the right of the general public to know and understand what goes on in the daily operation of its schools. However, in order to prevent the interruption of the educational process in all parish schools, the following procedures should take place:

1. Any visitor or visitors to any school must go to the principal's office immediately upon arriving on the campus.
2. All visits to any classroom must have the approval of the principal.
3. Only authorized personnel will be permitted to visit within individual classrooms, unless circumstances are such that the principal gives approval.
4. Any person or group of persons who wish to make inspections, gather information, collect donations, etc., at any school or schools must get prior approval from the Superintendent or his/her designee.

Issued and approved prior to 1975
