Kindergarten Math

Module 2: Two-Dimensional and Three-Dimensional Shapes

Math Parent Letter

This document is created to give parents and students a better understanding of the math concepts found in Eureka Math (© 2013 Common Core, Inc.) that is also posted as the Engage New York material which is taught in the classroom. Module 2 of Eureka Math (Engage New York) covers Two-Dimensional and Three-Dimensional Shapes. This newsletter will discuss Module 2, Topic C.

Topic C. Two-Dimensional and Three-Dimensional Shapes

Words to know

- Two-Dimensional Shapes
- Flat Shapes
- Circle
- Rectangle
- Square
- Triangle
- Hexagon
- Three-Dimensional Shapes
- Solid Shapes
- Sphere
- Cylinder
- Cube
- Cone

Objective

Students will determine the difference between two-dimensional and three-dimensional shapes and objects and sort them into groups.

OBJECTIVE OF TOPIC C

- 1 Identify and sort shapes as two-dimensional or three-dimensional and recognize two-dimensional and three-dimensional shapes in different orientations and sizes.

Focus Area – Topic C

Two-Dimensional and Three-Dimensional Shapes

Flat Shapes

Solid Shapes

In Topic C, students will identify various solid shapes and various flat shapes.

Circle the pictures of the flat shapes in red. Circle the pictures of the solid shapes in green.

In each row, circle the one that does not belong.
